

Physics and Applications of High Brightness Beams

Tuesday, June 20, 2023

CBB-sponsored student session (3:00 PM - 4:30 PM)

time	[id] title	presenter
3:00 PM	[27] Spectrotemporal shaping of attosecond x-ray free-electron laser pulses	ROBLES, River
3:20 PM	[30] Detailed Phase Space Reconstruction from a Limited Number of Beam Measurements Using Neural Networks and Differentiable Simulations	GONZALEZ-AGUILERA, Juan Pablo
3:40 PM	[88] The Ion Channel Laser: Physics Advances and Experimental Plans	HANSEL, Claire
4:00 PM	[74] Transverse stability in an alternating gradient planar-symmetric dielectric wakefield structure	LYNN, Walter
